

CZ ÚVOD

Již více jak 15 let pracujeme na budování pozice kvalitativního a designového lídra trhu s nábytkovými dvířky. Během tohoto období se značka **PROFORM** stala uznávanou obchodní známkou nejen v Česku a na Slovensku, ale i v Evropě. Neustále rozšiřujeme nabídku našich produktů a služeb tak, aby odpovídaly potřebám trhu. Kromě pestré, pečlivě připravené a neustále aktualizované nabídky nábytkových dvířek a dekoračních panelů nabízíme našim zákazníkům širokou škálu stolařských služeb, včetně výroby korpusů na míru. Jsme hrdí na to, že vývoj našich produktů je doprovázen neustále aktualizovanými marketingovými materiály, technickou dokumentací a inovativním on-line objednávkovým systémem. Mezi naše klienty dnes patří nejen výrobci nábytku, nábytková studia a montážní firmy. Díky technologickým znalostem, rozsáhlým znalostem materiálů a našim technickým možnostem, stále intenzivněji spolupracujeme s designéry a architekty, kteří se podílejí na významných investičních projektech. Věnujte pozornost detailům - rozlišují proprietární produkty od padělků!

EN INTRODUCTION

We have been working hard to become a leader in production and quality for more than 15 years. During this period, the **PROFORM** brand has become a recognizable trademark in Czech Republic, Slovakia and Europe. We keep expanding our range of products and services to address the needs of the market. Apart from a varied, carefully prepared and constantly updated selection of cupboard fronts and decorative panels, we offer our customers a wide range of carpentry services, including the production of ready-to-size furniture bodies. We pride ourselves that our product development is accompanied by constantly updated marketing material, technical documentation as well as an innovative Customer Service Platform. Today, our clients include not only furniture manufacturers, furniture studios and assembly companies. Thanks to our technological expertise, extensive knowledge of materials and our technical capabilities, we keep intensifying cooperation with designers and architects, participating in major investment projects. Pay attention to details – they distinguish proprietary products from fakes!

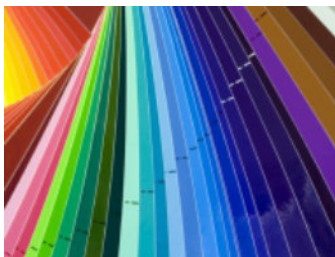

LAK MAT – LAK VYSOKÝ LESK / LAK MAT – LAK VYSOKÝ LESK / MATT LACQUER - HIGH GLOSS LACQUER

CZ:

Pro nejnáročnější zákazníky jsou lakovaná dřívka nejlepší volbou – možnost výběru z palety barev RAL a NCS umožní splnit každé Vaše přání.

Jednou z nejčastějších povrchových úprav je matný lak (stupeň lesku 20) nebo vysoký lesk (stupeň lesku 99). Nejvyššího povrchu je dosaženo postupným nanášením 5-8 vrstev laku na nosný materiál (frézovaná MDF deska). V případě vysokého lesku je pro dosažení zrcadlového efektu povrch v několika krocích leštěn.

Důležité! Používáme pouze barvy, které jsou certifikovány pro styk s potravinami.

SK:

Pre najnáročnejších zákazníkov sú lakované dviierka najlepšou voľbou - možnosť výberu z palety farieb RAL a NCS umožní splniť každé Vaše prianie.

Jednou z najčastejších povrchových úprav je matný lak (stupeň lesku 20) alebo vysoký lesk (stupeň lesku 99). Najkvalitnejšieho povrchu je dosiahnuté postupným nanášením 5-8 vrstiev laku na nosný materiál (frézovaná MDF doska). V prípade vysokého lesku je pre dosiahnutie zrkadlového efektu povrch v niekoľkých krokoch leštený.

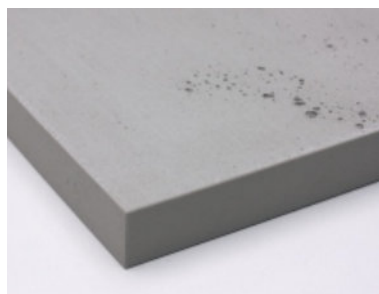

Dôležité! Používame len farby, ktoré sú certifikované pre styk s potravinami.

EN:

Lacquer-coated furniture fronts are the best option for the most demanding needs - the ability to choose from the full RAL/NCS chart allows us to fulfil every requirement.

The most popular finish is matt (gloss grade 20) and high gloss (gloss grade 99). In order to guarantee the highest quality, the base material (milled MDF board) is coated with only around 5-8 layers of lacquer. To achieve a glass-like surface of high gloss fronts, they are additionally polished multiple times.

Caution! - we only use lacquers which are attested for food contact.

IMI - BETON / IMI - BETON / IMI - BETON

CZ:

IMI-BETON vypadá jako beton, na dotek je jako beton, ale není to beton. Jedná se o moderní materiál – flexibilní minerální hmotu s obsahem přírodního mramoru. Jeho předností je nízká hmotnost, a proto má mnohem širší oblast použití. IMI-BETON umožňuje vytvořit interiéry se vzhledem betonu, jejichž realizace klasickým způsobem by byla velmi drahá a časově náročná. Tento materiál nemá téměř žádná omezení a lze jej kombinovat s různými materiály, čímž se vytvoří v interiéru jedinečná atmosféra.

EN:

It looks like concrete. It feels like concrete. However, it is not. Imi - Beton is innovative composite material made of hydro-mass. According to that, you can design your interior giving it concrete-look especially, when it is impossible to use cement. The weight is primary advantage of syntetic concrete. Moreover, in comparison to autentic concrete, Imi - Beton is smooth and warm to the touch and there is no dust. It is perfect material to create a unique atmosphere.

NÁBYTKOVÁ DVÍŘKA

CZ: Nábytková dvířka jsou nejrepresentativnější částí nábytku, dávají mu výraz a charakter, což v konečném důsledku tvoří ráz celého interiéru. Proto by jejich výběr měl být velmi dobře promyšlený.

Při tomto důležitém rozhodování ve smyslu estetiky (vzoru a barvy) nesmíme zapomínat, že se jedná o volbu na několik let, proto mají velký význam i užitné vlastnosti, jako je kvalita a životnost. To může zajistit pouze použití nejkvalitnějších značkových surovin a materiálů ve spojení s důkladnými technologickými znalostmi a péčí. Chceme, aby Vám vybraná dvířka dělala radost co nejdéle!

Nábytková dvířka PROFORM nabízíme v mnoha variantách povrchové úpravy od fóliovaných, přes akrylová, lakovaná, dýhovaná až po různé fantazie.

Z širokého spektra vzorů, materiálů a barev si každý snadno najde to pravé. Zákazníkům hledajícím něco výjimečného, dáváme možnost vytváření vlastních, neopakovatelných dvířek.

Naše dvířka jsou pro Vás volba bez kompromisů!

FURNITURE FRONTS

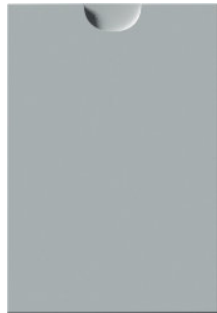

EN: Furniture fronts are the most representative part of a furniture, giving it character and therefore creating the desired atmosphere of the entire room. Because of the above, selecting the right furniture front should be particularly well-considered.

While making an important decision in regard to the aesthetics, choosing the designs and colours, we should not forget about usability, quality and durability of the product, as it will serve us for years. Only using recognised materials of the best quality, combined with the uttermost diligence and an in-depth technological knowledge guarantees the highest quality and durability of the final product. Our aim is for you to be able to enjoy our furniture fronts for as long as possible! Our front assortment is available with a PCV foil, acrylic, lacquer, veneer or imaginative finish. With our wide range of materials, designs and colours you are sure to find something you will love. For anybody looking for unique creations, we offer a possibility of creating individual, one-of-a-kind fronts.

Our fronts are your uncompromising choice!

DEKORAČNÍ PANELE

CZ:

Dekorační panely Moduloform nabízejí širokou škálu možností jak zcela svobodně vytvořit jednotlivé části či celé místnosti. Ukázali jsme, že vzor je nejen vlastností určitého prvku, ale že může být také součástí větší formy, kde vzory spojují jednotlivé prvky do jedinečného celku. Naše panely Vám poskytují nepřehledné možnosti pro realizaci Vašich nápadů. Jsou určeny pro všechny kreativní profesionály, kteří se nebojí překonávat zažitá představy. Díky nám již jednotlivé prvky nejsou ploché a prostor získává na hloubce.

Panely nabízíme v průhledné a plně verzi a povrchových úpravách fólie, lak a dýha.

DECORATIVE PANEL

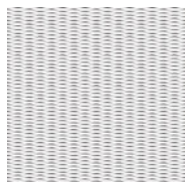

EN:

ModuloForm presents a vast range of possibilities and choices of design creations for individual elements or whole surfaces. We prove that design is not a feature of just one element but a start of a larger form, and that it is the design that joins individual elements into one, unique whole. Our panels are, on one hand, an unlimited source of ready ideas for various applications, and on the other hand, a resource for anybody interested in creativity, willing to break the mould and push the boundaries of their imagination. With us, a single element is no longer flat and surfaces acquire depth. Available in full and openwork versions, available finishing: foil, lacquer and veneer.

RADIATOR COVERS

EN: Our radiator covers can transform an unattractive or even ugly radiator into an aesthetic element, constituting an integral part of the entire room. In a prompt and easy way, an old radiator hidden behind our cover becomes a new design highlight of your room. The element is available in six standard designs, in various sizes and colours, with a matt or high gloss finish. We also offer window sills and an installation system for our covers.

Návod na údržbu nábytkových dvířek PROFORM

Care recommendations

CZ:

Nábytková dvířka PROFORM jsou vyrobena na bázi dřevěných materiálů jako je MDF deska, DTD deska, dýha nebo masivní dřevo a jako takové na nechráněných nebo mechanicky poškozených místech absorbují vlhkost. Proto je třeba při údržbě dbát na kontrolu takovýchto míst, aby se zabránilo nabobtnání dvířek.

Jinak je údržba velmi jednoduchá – v pravidelných intervalech stačí dvířka ofouknout, aby se zbavila prachu, následně je vyčistit 5% mýdlovým roztokem, zbylé mýdlo smýt vodou a utřít dosucha za použití speciální utěrky, která je dostupná na prodejně a v našem eshopu.

Pokud je povrch znečištěn a objeví se jakékoli skvrny, zejména ty způsobené barevnými látkami a tekutinami (jako je hořčice, káva, čaj, červené víno atd.) je nutno co nejdříve umýt vodou a výše popsáním způsobem tak, aby se zabránilo jejich zaschnutí. Po jejich zaschnutí je odstranění obtížné a spočívá v několikerém opakování standardního postupu.

Nepoužívejte čisticí prášek, kartáče nebo ocelovou vlnu! K čištění nejsou vhodné parní vysavače, vysokotlaké čističe a abrazivní houbičky.

POZOR! JE ZAKÁZÁNO POUŽÍVAT SILNÉ ČISTICÍ PROSTŘEDKY, ROZPOUŠTĚDLA, TEKUTINY NEBO PASTY OBSAHUJÍCÍ ABRASIVNÍ ČINIDLA, TEKUTINY NA OKNA, OCET, ČISTIČE NÁBYTKU OBSAHUJÍCÍ VOSK, TVRDÉ HOUBY, PAPIROVÉ RUČNÍKY ATD.

EN:

PROFORM furniture doors are made on the basis of wooden materials such as MDF board, DTD board, veneer or solid wood and as such absorb moisture in unprotected or mechanically damaged areas. Therefore, it is important to check such places during maintenance to prevent swelling of the door.

Otherwise, maintenance is very simple - just blow the door at regular intervals to get rid of dust, then clean it with a 5% soap solution, wash off the remaining soap with water and wipe it dry using a special cloth, which is available at the store and in our e-shop.

If the surface is dirty and any stains appear, especially those caused by colored substances and liquids (such as mustard, coffee, tea, red wine, etc.) it must be washed as soon as possible with water and in the manner described above in order to prevent them from drying. After they dry, their removal is difficult and consists in repeating the standard procedure several times.

Do not use cleaning powder, brushes or steel wool! Steam cleaners, high-pressure cleaners and abrasive sponges are not suitable for cleaning.

ATTENTION! IT IS PROHIBITED TO USE STRONG CLEANING AGENTS, SOLVENTS, LIQUIDS OR PASTE CONTAINING ABRASIVE AGENTS, WINDOW FLUIDS, VINEGAR, FURNITURE CLEANERS CONTAINING WAX, HARD SPONGES, PAPER TOWELS, ETC.
